\*Operational sustainability (OSS) is the ability of an organisation to cover the costs of its lending program with the revenue earned from its lending program. Represented calculations are based on a weighted average for each country's total portfolio.

\*\*Portfolio At Risk (PAR) is a stringent measure of a microfinance institution's loan portfolio quality, calculating the total value of outstanding loan balances for loans with at least one payment being overdue by more than 30 days. Represented calculations are based on a weighted average for each country's total portfolio.

## BUILDING HEALTHY COMMUNITIES

Through life-changing, preventative health education

**716,500** families reached with health education. With an average of five in each family, that's more than **3.6 million** lives you've transformed through **2,866** health leaders.

## DELIVERING INNOVATION

By testing new products and services like special loans for farmers that can help more people leave poverty faster

**7,000** farmers in the Philippines benefiting from innovative soil testing techniques.

## CREATING LEADERS

By training the youth of today to be the thinkers and change-makers of tomorrow

**50 young leaders** started their training in Ghana.

## ENHANCING IMPACT

Through continuous learning and improvement of everything we do

We use social data collected from our program partners to understand how families are progressing out of poverty.

We have collected social data for 3.6 million clients globally, representing 92% of Opportunity's total outreach.
