Net Promoter Score

The MFI's fees, interest rates, and penalties are easy to understand and clear. (Borrowers Only)

"My business is thriving," said one survey participant from Indonesia. "I have extra capital for my business. Thus, I can save more money. I plan to use the saving for my kids' education. I have more money to spend for my family."

"Alhamdulillah (praise god) the income from my business is increased so I can buy healthy food and can also pay for household expenses such as paying for electricity."
